Md. Mashrur Alam

+880 1921-387773 | *mashrur773@gmail.com* | *linkedin.com/in/mashrur73* | *github.com/mahin7773*

Research Interests

Computer Vision, Image Processing, Deep Learning, Network & System Security, Web & Application Security, Cryptography, Cloud & Distributed Systems Security, Privacy & Data Protection.

Education

Khulna University of Engineering & Technology **CGPA:** *3.65/4.00*
B.Sc. Engg. in Computer Science and Engineering *Feb 2019 – March 2024*

Research Work

Undergraduate Thesis
3D Reconstrution From Multi-View 2D Images *Python, PyTorch, OpenCV, Apex*

- Used Neural Graphics Primitives to reconstruct 3D objects from multi-view 2D images
- Mult-Resolution Hash Encoding to improve training speed and quality of 3D reconstruction
- Training time reduced from days to minutes compared to traditional NeRF methods

Work Experience

Lecturer, Dept. of CSE Jan 2025 – Present
Dhaka International University *Badda, Dhaka*

Lecturer, Dept. of CSE & CSIT July 2024 – Dec 2025
Shanto-Mariam University of Creative Technology *Uttara, Dhaka*

Projects

Omega Tech *HTML, CSS, JavaScript, PHP, MySQL*
Web application for managing an online computer parts store

- Customer registration and login for tracking orders, cart management and checkout
- Admin Panel for monitoring order deliveries

3D Space Shooter *C++, OpenGL*
A two-player space shooter game

- Interactive features such as shooting and movement mechanism, points system
- OpenGL for realistic textures, dynamic lighting

GridLock *Python3, PyGame*
6x6 grid game with single/multi-player modes

- Used Minimax algorithm and Alpha-Beta pruning to implement single player mode
- Custom GUI with PyGame for interactive gameplay experience

BPMonitor *Java, Firebase, XML, SQLite*

Android application for tracking and visualizing heart rate and blood pressure data with a simple and intuitive interface

HBM *Swift, Firebase, XML*

iOS application for monitoring and updating the status of available hospital beds in Bangladesh during the COVID-19 pandemic

Technical Skills

Programming Languages: Python, C/C++, Java

Deep Learning Frameworks: PyTorch, TensorFlow

Libraries & Tools: NumPy, Pandas, Scikit-learn, OpenCV, Git, Docker

Web Development: HTML, CSS, JavaScript, PHP, MySQL, DJANGO

Mobile & Application: Android (Java/Kotlin), iOS (Swift)

Operating Systems: Windows, Linux (Debian, Arch)

Extra-Curricular Activities

- **Organizing Committee**, 3rd International Conference on Big Data, IoT and Machine Learning (BIM 2025)

Awards & Certifications

- **Dean's Award**, Faculty of EEE, KUET (Sophomore Year)
- **General Schorlarship Award**, HSC Level (2018)
- **Talentpool Schorlarship Award**, SSC Level (2016)
